Woodbine, GA | (760) 525-6770 | glendonzane1@gmail.com | [linkedin.com/in/glendon-zane](https://www.linkedin.com/in/glendon-zane)

U.S. Navy Chief Petty Officer (Retired) | Active Top Secret Security Clearance (SCI Eligible) | Disabled Veteran

PROFESSIONAL SUMMARY

Former U.S. Navy Chief Petty Officer with 14+ years of leadership experience supervising personnel, managing administrative operations, and supporting mission-critical programs in highly regulated environments. Proven background in technical support, information systems administration, records management, reporting, data analysis, process improvement, compliance, and cross-functional collaboration. Experienced in troubleshooting complex personnel, pay, and travel systems while maintaining data accuracy, security, and operational readiness, and currently pursuing an Associate of Science in Information Technology with a focus on systems administration, technical support, and process automation.

CORE COMPETENCIES

Technical Support & Troubleshooting | Information Systems Administration | Data Management
Reporting & Data Analysis | Records Management & Compliance | Process Improvement
Microsoft 365 & Office Suite | End-User Support | Cross-Functional Team Collaboration
Leadership & Staff Development | Project Coordination | Security & Risk Management

PROFESSIONAL EXPERIENCE

U.S. Navy – Chief Yeoman (E-7), Submarine Force

March 2011 – February 2026

- Managed personnel, pay, travel, and administrative programs supporting organizations of more than 400 personnel across multiple commands, ensuring operational readiness, compliance, and workforce accountability, while enabling mission-focused operations.
- Served as Administrative Department Leading Chief Petty Officer and Administrative Officer, overseeing personnel, pay, travel, records management, security administration, and workforce readiness programs across multiple operational and shore-based commands.
- Served as Command Pay and Personnel Administrator (CPPA), resolving complex payroll, entitlement, and travel issues through Salesforce eCRM and Department of Defense personnel systems while ensuring regulatory compliance.
- Administered personnel databases, records systems, and document control programs requiring exceptional accuracy, confidentiality, and regulatory compliance.
- Led process improvement and technology adoption initiatives that reduced administrative processing times by more than 60% while improving accountability, workflow efficiency, and data accuracy.
- Conducted audits, quality assurance reviews, and records validation efforts to improve data integrity, operational readiness, and compliance.
- Supported secure operations involving classified information and sensitive personnel data while maintaining zero security violations throughout multiple assignments.
- Trained, mentored, and developed junior personnel on administrative systems, customer service, troubleshooting procedures, and organizational policies.
- Coordinated travel, budgeting, onboarding, evaluations, workforce accountability, and personnel support functions across multiple commands worldwide.
- Recognized for leadership, problem-solving, adaptability, and operational excellence in high-pressure environments.
